

Department of Clinical Sciences
2007-2008 Lectures & Seminars Schedule

Works in Progress Research Conference (DCS Trainees & Mentors)

This conference is intended to build organization and presentation skills, elicit critique from colleagues and supervisors, expose trainees to the wide variety of clinical research on campus and stimulate collaborations. Trainees including Doris Duke Research Fellows, Departmental T32 Training Grant Fellows, K30 Graduate Certificate and Masters in Clinical Science trainees and Clinical Research Scholars participate. Trainees are assigned to present their early research design, methods and results (when applicable) to their peers, program directors and mentors.

Time: Tuesdays, Noon-1:30; Location: E6.224, * D1.100

SPEAKER	TRAINING PROGRAM	DATE
Shana Elman	Doris Duke	08/28/07
Maria Ramos-Roman	Clinical Scholar	09/04/07
Natalie Bachir	Certificate	09/11/07
Charu Gupta	Doris Duke	09/18/07
Soumya Adhikari	Grad Cert	09/25/07
Teddy Youn	Doris Duke	10/02/07
Roberto Santos	Masters	10/09/07
Rachael Cayce	Doris Duke	10/16/07
Pablo Mora -Pending	Certificate	10/23/07
Aditya Bagrodia	Doris Duke	10/30/07
Debra Weinberger	MS Dist	11/06/07
Dhruvi Patel	Doris Duke	11/13/07
Uzma Mehdi -	Masters	11/20/07
Anshu Jain	Doris Duke	11/27/07
Richard Guerrero	Masters	12/4/07
Shana Elman	Doris Duke	12/11/07
Julia Allyson Niece	Certificate	12/18/07
Charu Gupta	Doris Duke	01/8/08
Nancy Puzziferri	Clinical Scholar	01/15/08
Teddy Youn	Doris Duke	01/22/08
Eric Rosero	Certificate	01/29/08*
Rachael Cayce	Doris Duke	02/05/08*
Arthur Westover	Clinical Scholar	02/12/08*
Aditya Bagrodia	Doris Duke	02/19/08*
Kevin Swartz	Clinical Scholar	02/26/08*
Dhruvi Patel	Doris Duke	03/04/08
Shalini Mukherjee	Masters	03/18/08
Anshu Jain	Doris Duke	03/25/08
Monica Ardura	Clinical Scholar	04/1/08
Shana Elman	Doris Duke	04/08/08
Scott Brakenridge	Clinical Scholar	04/15/08
Charu Gupta	Doris Duke	04/22/08
Mike Singer	Clinical Scholar	04/29/08
Teddy Youn	Doris Duke	05/06/08
Marlene Corton	Clinical Scholar	05/13/08
Rachael Cayce	Doris Duke	05/20/08
Terry Jones	Clinical Scholar	05/27/08

Clinical Science Forum (Open Attendance)

The goal of the Clinical Science Forum is to provide an open community-based opportunity for early-career clinical investigators to improve their skills in clinical research design and analysis and in the presentation of research plans and data. This goal will be achieved by having participants master key aspects of the thinking process of clinical research in a light-hearted, but critically analytical environment. Expert Forum Panel members will ask the presenter general and specific questions about any and all aspects of the research proposal and provide lively critiques of the substance and style of the research proposals. The intent of the questions will be (1) to provide constructive feedback to the presenter on his/her research plan; and (2) to make teaching points that will help guide the thinking processes and research plans of the clinical investigators assembled in the audience
Time: 2nd, 3rd and 4th Wednesday of the month, Noon-1:30, Location: D1.200.

Michael Limerick	05/14/08	
	05/21/08	
David Markham	05/28/08	

Success Stories (DCS Trainees/Mentors)

This series is designed to provide trainees with exposure to practical approaches to developing and managing a successful career in clinical science. Senior faculty presenters tell their success story in an informal environment and highlight the importance of learning from successes and failures during their careers. In addition, selected junior investigators present their stories to trainees to give trainees a closer look at their near future. This forum allows trainees to have direct interactions with successful senior and junior investigators.
Time: 1st Wednesday of the month, Noon-1:30; Location: D1.200

SPEAKER, TITLE	DATE
George Buchanan	9/5/2007
Robin Jarrett	10/3/2007
Ed Livingston (<i>Patricia Bleigh aa</i>)	11/7/2007
Wanpen Vongpatanasin	12/5/2007
	2/6/2008
	3/5/2008
Richard Leff	4/2/2008
	5/7/2008

Visiting Professors / Speakers (continued)

Clinical Pharmacology Visiting Speakers (Open Attendance)

The open forum events listed below are selected sessions of DCS 5203: Clinical Pharmacology & Drug Development. All other sessions of this course are formal curriculum open to registered students only.
Time: Wednesday 4:00-6:00; Location: D1.200

SPEAKER	DATE	TITLE

Ethics in Clinical Sciences

Lively discussion of special ethical issues in clinical research including: Informed consent, privacy and confidentiality; clinical equipoise; record keeping requirements; publication and authorship; defining scientific integrity and misconduct; conflicts of interest; studies in vulnerable populations; genetic research and testing; gene therapy; intellectual property; technology transfer; relations with industry.

Time: 1st and 3rd Tuesdays, 2:30-3:45 PM, Location: D1.200

Core Sessions

TOPIC:	DATE:	TITLE:
Introduction, logistics, grading, orientation to research ethics	09/04/07	Course Introduction
Introduction to ethical reasoning and related processes	09/18/07	Moral Reasoning
Techniques of settling disagreements among people	10/02/07	Conflict Resolution
Is it treatment or is it research?	10/16/07	Treatment vs. Research
Informed Consent (Basics)	10/30/07	Informed Consent (Basics)
Clinical Research Relevant to Third Parties	11/13/07	Clinical Research Relevant to Third Parties
Dealing with unexpected scientific and clinically important findings	11/27/07	Important Accidental Discoveries
Getting what you want from mentors	12/11/07	Mentorship I
Consent and risk issues with unproven biological markers	01/08/08	Untested Markers
Conflicts of Interest/Duty	01/22/08	Conflicts of Interest and Duty
Handling misconduct and fraud	02/05/08	Fraud, Misconduct and Responsible Research
Ethics of Subject Recruitment	02/19/08	Ethics of Subject Recruitment
Compensating for injuries or medical errors in research	03/04/08	Research Errors and Compensation for Research Injuries
Talking to media, public policy advising	03/18/08	Science/Citizenship-Media Relations
Authorship order and publications	04/01/08	Authorship
Gender and Ethnicity in Science Careers	04/15/08	Gender/Ethnicity
TBA	04/29/08	Special Request Topics
Exam	05/06/08	Exam

Supplemental Workshops

Topics covered include, ethics and responsible conduct of research, genetics and human research, human subject protection, research subjects and obtaining informed consent, study design and analysis, data management, good clinical practice, protocol development, scientific writing skills, grantsmanship, and composition of a scientific paper.

EVENT	DATE	TIME	LOCATION	ATTENDANCE REQUIREMENT
13 th Annual Fundamentals of Patient Oriented Research Symposium		7:30a-5:00p	Cityplace	K-30 trainees required to attend
